"Attract Stampedes of FREE Traffic From Google
When You
Hire An SEO Expert... For Just \$2.95!"

Review Of Derek Gehl's "Search Marketing Labs":

Attracting crowds of qualified buyers with a top ranking in Google, Yahoo,
and MSN just got a whole lot easier... and cheaper.

The term "search engine optimization" used to be synonymous with difficult
and expensive. Not any more.

Because thanks to Derek Gehl's latest release, you do NOT need to be
intimidated by terms like "keyword density" and "optimization" anymore. And you certainly don't need to outsource your
search engine traffic campaigns to third-party experts for exorbitant fees of \$3,000-\$10,000!

Instead, you can finally "do it yourself" and enjoy substantial increases in
your traffic and sales with the expert guidance of your very own, private SEO consultant...

... Who will help blast your website to a top listing in Google, Yahoo,
and MSN!

All for the ridiculously low investment of just \$2.95.

There's absolutely no guesswork.

First, Derek gives you a series of online videos that walk you through the
baby step basics of getting your website search engine ready.

Then, using the same clear, no-BS teaching style, you'll be shown how to
apply the very same advanced SEO strategies that Derek and his team have used to secure a Top 5 ranking in Google
for 3 years running...

... And beat out over 294 Million competitors including many multi-million
dollar corporations!

And then, just in case you need some extra hand-holding, you'll have
unlimited access to Derek's very own in-house SEO expert in a secret discussion forum, where you can ask unlimited
questions about your specific search engine campaign!

This alone is EASILY a \$1500-\$3000 value -- but Derek's giving you
unlimited access to his private SEO expert for the next 30 days for just \$2.95.

When Derek first launched his "Search Marketing Lab" approximately one
year ago, I didn't pay much attention.

My mistake.

Because today, he's got testimonials lined up around the block -- all regular
people who started with ZERO or mediocre traffic, who attract 5,000 to 40,000+ visitors every month using these secrets.

The majority of SEO books, courses, and seminars you'll find out there are a
waste of money, not worth the paper they're printed on, because they're not kept up-to-date.

But since "Search Marketing Lab" gives you the same SEO strategies that
Derek's currently using on his own site (www.marketingtips.com), which is reported to attract over 1.8 Million visitors
every month, you can be sure you'll be the first to know when there's a major search engine change...

... And the first to PROFIT from Derek's hard won SEO research, newest
optimization techniques, and late-breaking developments.

I recommend very few SEO resources to my clients. But this tops my list.
And the \$2.95 Trial that Derek is giving away right now is a steal. To get

yours before he shuts it down...
