Michael Jones "The Clickbank Code"

Clickbank....if only we could all make the commissions shown in all those screen shots scattered across the internet, like the one Michael Jones shows on the The Clickbank Code web page shown below:

Honestly, I have yet to attain the kind of affiliate commissions shown above, but I have not let that stop my endless pursuit of achieving those kind of results. I have had hundred dollar days with some of my promotions, but I am still waiting for the day to break the thousand dollar mark. My guess is, that many of you reading this blog post are in the same boat as I am. Many of you may be even newbies to the affiliate or Clickbank market place. If that's the case, this program is designed to "kick start" your success in the affiliate marketing realm.

Here is a quick video overview of the Clickbank Code:

If you do not currently have a Clickbank account, just click on any Clickbank link throughout this post to open your FREE Clickbank account.

The next major question I have is with everyone of these mega dollar commission screen shots, is "How much was actually spent on ad spend?!! Showing that you made \$3-5K in one week is great, but if you spent close to that in ad spend to generate that type of commission....well, it kind of defeats the purpose of making money in the first place. If you notice, that most of these type of programs never tell you how much they spent in order to achieve those kind of results that are depicted in the infamous screen shots.

Right now you may be thinking that I am shooting myself in the foot with the review that I am writing, but I just wanted to get it all out on the table because I feel that many of you may have the same nagging questions in the back of your mind as well.

Now this does not mean that this product or many others out there are not legit or can truly help and assist you to attain the affiliate results you desire. I have learned a great deal through many of the countless ebooks, videos, audio files, etc that I have downloaded through out the years (over 20GB of Hard Disk space!)...some material worth their weight in gold...others...well?? ..need I say more. I'm sure many of you may feel the same way.

The one thing I can say is that Michael Jones "The Clickbank Code" does have some value packed information contained in it that can help you on the road to Clickbank success.

Throughout his program, there are great tools and tactics you can use to increase your Clickbank earnings, some of which I was already using in promoting Clickbank affiliate products. The nice part is that it is in video format, so if you are a visual learner (or not) it makes it easier than just reading the usual ebook that so many other "Gurus" publish. I'm not totally knocking ebooks, but if you can get video and the printed page all the more the better. The more senses you can utilize in the learning process, the greater your capacity to learn.

In conclusion, if you are looking for a great product to learn more on how to generate your next million (I'm already working on my next million....as I gave up on my first million...hehehe :-), then The Clickbank Code is a great place to start.

### The Bonanza Part!

Here's the deal! Instead of offering you countless ebooks and other "specials", I am offering a FREE one on one mentoring consultation for at least one hour to answer any questions you may have or to just coach you in the right things to do to market your website or affiliate products. If you are a newbie, I will guide you through the start-up jungle to teach you how to buy a domain name, setup a hosting account, design your first web site or blog, and how to market and promote your site. To take advantage of this offer, just email me a copy of your Clickbank Code receipt to [bryan\(at\)clickbankcodebonanza.com](mailto:bryan(at)clickbankcodebonanza.com), and I will set up a time to mentor you one on one and help you on your way to internet success!
